SHOPAHOLICS CORNER

Did you know?

- Shopping has always been cheaper than a psychiatrist!!
- The odds of going to the store for a loaf of bread and coming out with only a loaf of bread are three billion to one.
- A bargain is something you can't use at a price you can't resist.
- Women usually love what they buy, yet hate two-thirds of what is in their closets.
- Shopping mall designers believe that carpets or other soft surfaces make customers feel at home; and the click of heels' sound on polished floor attracts more women, thus inspiring them to shop and spend more money.
