**Did you know - Shopping Facts**

1. The quickest way to get to know a woman is to go shopping with her.
2. When women are depressed, they eat or go shopping. Men invade another country. It's a whole different way of thinking.
3. "Life is too short to wear boring clothes." Think about how long the universe has existed. In comparison, your life is so incredibly brief. You might as well make the most of it by dressing to impress. Go all out, and wear what you love. Nothing's stopping you, but the cashier.
4. "I could give up shopping but I am not a quitter." You wouldn't quit make up or your job, would you? If not, then why would you quit shopping? It might make your Chanel wallet a little lighter, but it'll make your smile wider. One of the best pieces of shopping advice is that you can never have too many clothes. You might mistakenly think it's time to put the credit card away, but a pair of perfect heels will always change your mind.
